Najd Feki

Tunisia, Tunis • +216 51 857 357 • fekinajd@gmail.com

Full Stack Developer collaborative professional, self-motivator and gifted at finding reliable solutions for software issues. Experienced in developing and maintaining more than 30 web applications for hundreds of users, offering skills in **Javascript frameworks**, like **React**, **Node.js**, and **Typescript**. Fluent in English and accustomed to working with cross-cultural, global teams. Please visit my portfolio for more information about my projects, skills and accounts: Portfolio link.

Experience

APRIL 2025 – PRESENT

Senior Software engineer | Cynoia | Tunisia (Remote)

- Built a complete **Automation & Workflow builder** for Cynoia's **SAAS** platform, enabling automated task assignment, priority updates, and time-based triggers—reducing manual task management by **up to 40%** for active teams
- Developed an intuitive workflow interface with pre-built templates and integrated it deeply into Cynoia's chat, calendar, project management and notification systems, boosting automation adoption by **over 60%**
- Implemented a **Projects import module** enabling seamless migration from **Jira, ClickUP, Linear, and Asana**, cutting onboarding time for new organizations by **50%**
- Ensured high data compatibility and scalable syncing across multiple platforms, supporting imports of **thousands of tasks per workspace** without performance issues
- Delivered continuous enhancements across the platform—including **UI/UX improvements**, chat performance optimizations, and major updates to **file management services**—resulting in faster load times and smoother user experience across the entire **SAAS** ecosystem

NOVEMBER 2023 – APRIL 2025

Team Lead Full Stack Web Developer | Aroundix | United Arab Emirates (Remote)

- Designed a robust microservice architecture to support a total of **8 applications** for a marketplace project **"ElBaab".** As well as working on their dashboards using React and Nodejs to ensure seamless user experiences across platforms
- Implemented comprehensive (CI/CD) pipelines for microservices infrastructure, enhancing **deployment frequency by 40%** while reducing integration errors to nearly zero during the project lifecycle
- Directed collaborative efforts within cross-functional teams to transform project requirements into functional web solutions, achieved on-time delivery of **8 projects** tailored to meet the needs of a wide user base
- Integrated **Apache Solr** as well as caching for advanced text search functionalities, improving search performance and accuracy **by over 50%**, resulting in significantly faster data retrieval for large-scale user interactions

AUGUST 2023 - OCTOBER 2023

Software Consultant | HERO Circle| Holland (Remote)

- Reorganized and optimized the structure of a NestJS and React project to improve **maintainability** and **scalability**
- Managed **AWS Lightsail** and **S3** services for deployment and storage, ensuring efficient application **performance**

JULY 2021 – AUGUST 2023

Software Engineer Contractor| Finc3 GMBH / Front Row Group | Germany (Remote)

- Developed and maintained **4 web applications** used internally by the BI team and by clients, leveraging full-stack development skills to deliver high-performance solutions tailored to client needs
- Delivered high-performance applications with specialized expertise in Power BI and full-stack development tools, leading to increased efficiency measured at an average of **five hours** saved weekly per bi team member utilizing the new systems
- Collaborated seamlessly within **cross-functional teams** of 10 or more members, translating project requirements into innovative technical solutions and ensuring the successful delivery of web development projects
- Created interactive dashboard features leveraging **React** and **Node.js** frameworks

JUNE 2020 - JUNE 2021

Full Stack Web Developer | eDonec | Tunisia (Hybrid)

- Contributed to more than **3 web and mobile applications** such as marketplaces, traveling apps and video galleries supporting **hundreds of users** across the globe
- Adapted to the **fast-paced startup environment**, learning to handle multiple responsibilities and rapidly delivering solutions
- Developed and maintained **more than 4 projects** such as: keplertravel.com, asapforyou.fr and ream-movie.com

APRIL 2020 - MAY 2020

Software Developer Intern | Germanetti SRL | Tunis, Tunisia

- Contributed to the development of transportation and logistics software using .**NET**, supporting **workflow optimization** and **shipment tracking**
- Assisted in improving internal tools used for route planning, vehicle scheduling, and delivery coordination

FEBRUARY 2019 - MAY 2019

Software Developer Intern | Poulina Group Holding | Tunis, Tunisia

- Worked on implementing an autonomous vehicles system using **Siemens automation technologies** to move goods inside the warehouse
- Contributed to automated storage and retrieval operations, **reducing** manual handling and **improving** internal logistics efficiency

MARCH 2018 - SEPTEMBER 2018

Embedded Systems Engineer Intern | Kollab Agency | Tunis, Tunisia

- Participated in the development of an autonomous drone equipped with a display screen, designed for events and marketing activations
- Assisted in electronics, control systems, and prototype testing for **advertising-focused drone solutions**

Skills

TypeScript • JavaScript • React.js • Next.js • Node.js • Nestjs • .NET • Postgres/MySQL/MongoDB/Solr • REST/GraphQL • RabbitMQ • AWS S3 • AWS EC2 • AWS Lightsail • DigitalOcean

Education

Computer Science Engineering | ESPRIT (Private Higher School of Engineering and Technology)

Electrical Engineering Bachelor| Higher institute of technological studies ISET Rades

Languages

English- Full Professional Proficiency • French- Professional Working Proficiency • Arabic- Native Proficiency
